Saksham Sharma

has successfully completed the online, non-credit Specialization

CompTIA Security+ Certification (SY0-701): The Total Course

Congratulations on completing the CompTIA Security+ Certification (SY0-701): The Total Course! This comprehensive program covered key domains in IT security, equipping you with expertise in risk management, cryptography, secure networks, and incident response. Through hands-on labs and real-world scenarios, you gained practical skills in securing physical and virtual systems, cloud environments, and wireless networks. With this certification, you're well-prepared to excel in cybersecurity roles and implement robust security measures effectively. Great job on this milestone achievement!
